

THE
WILDS

MORINGA MANSIONS

A person wearing a hat and carrying a bag is running through a lush green field with a golden retriever. The scene is set in a forest of large, mature trees, with the sun low on the horizon, creating a warm, golden glow and long shadows. The overall atmosphere is peaceful and natural.

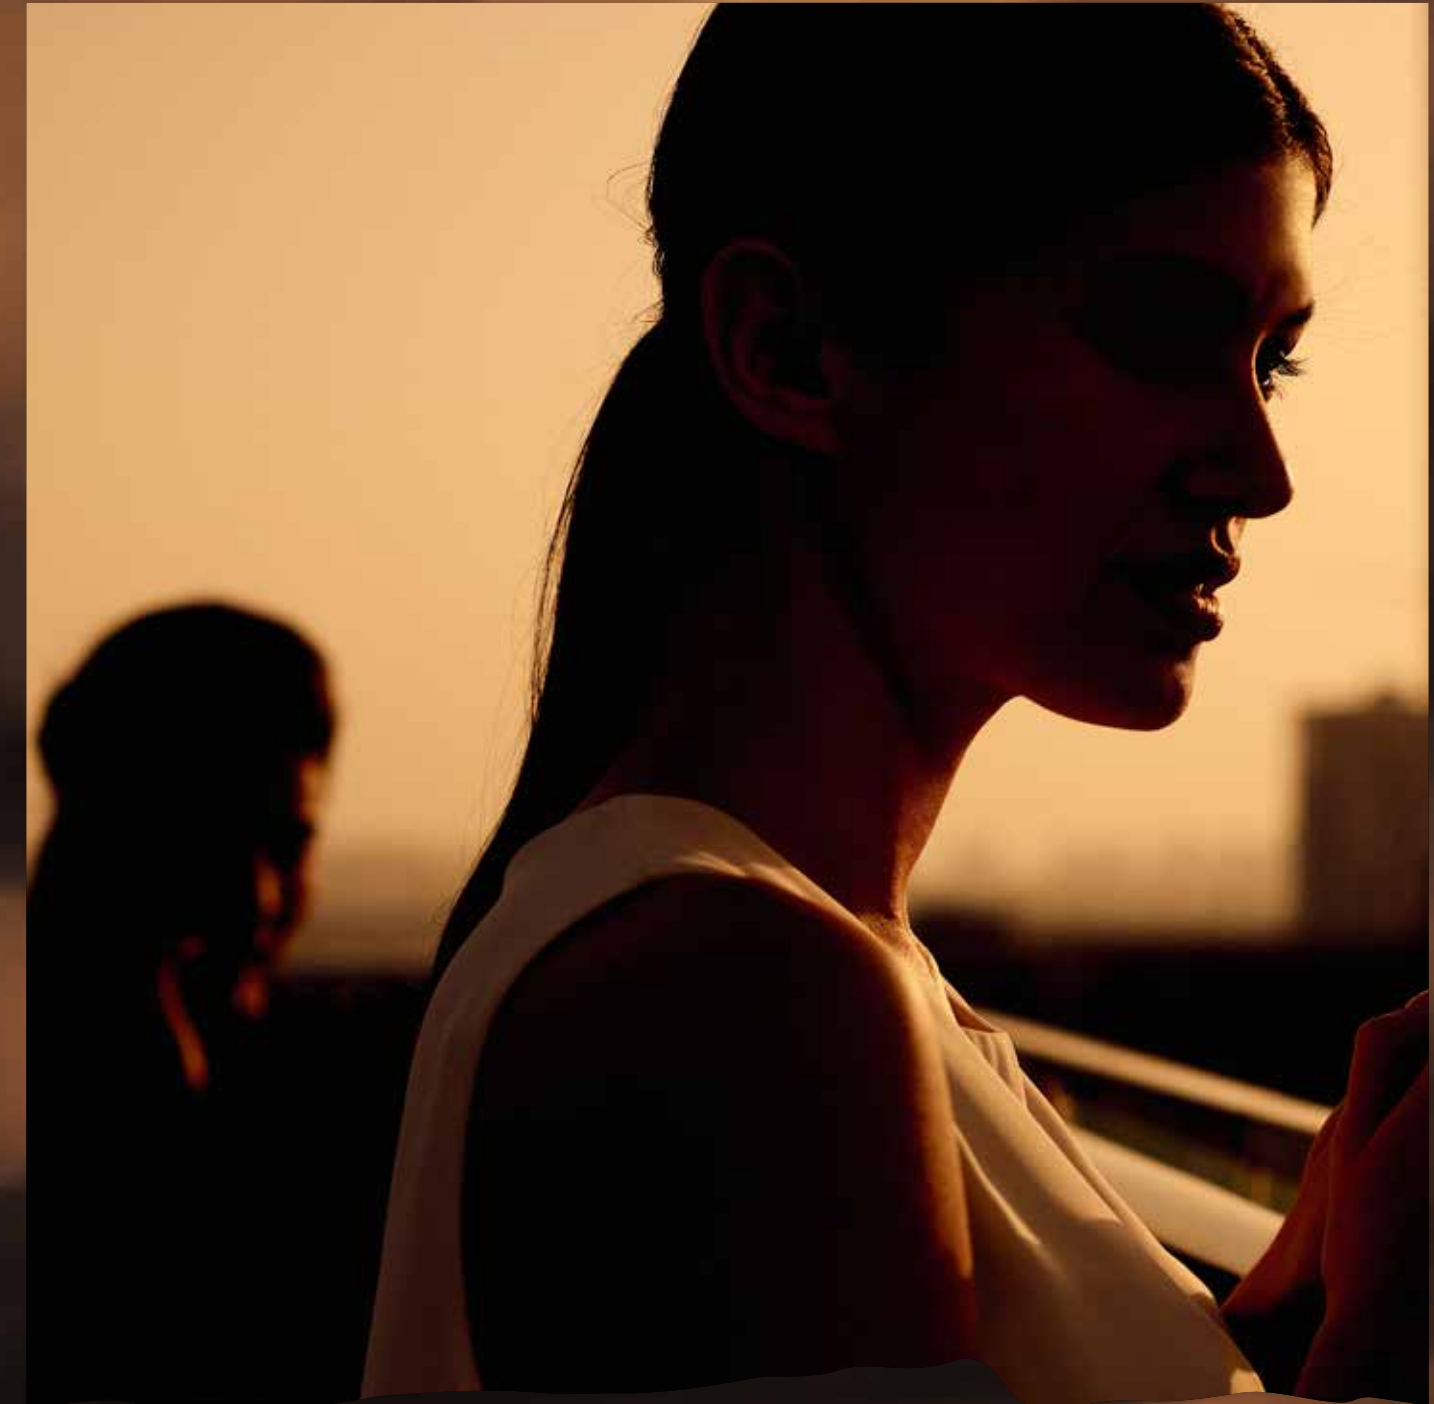

NATURE'S RAREST SANCTUARY

Guided by nature's wisdom, we've crafted a community in perfect balance, where privacy, beauty and sustainability come together in the heart of Dubai. At The Wilds Moringa Mansions, a rare collection of homes offers a life in harmony with wildlife and an experience only a select few will ever know.

A BLOOMING DUBAI

A dynamic, vibrant city, where modernity meets tradition. Home to well-travelled locals, expats, and a lifestyle of luxury, the city is increasingly embracing the beauty and value of living close to nature. As people seek new ways to reconnect with the natural world, Dubai is evolving to bring nature into everyday life.

ALDAR, ENRICHING
PEOPLE'S LIVES

As one of the most trusted and recognised real estate lifestyle developers in the UAE, it's our duty to nurture wellbeing in every home. Which is why we've created a community where people live as part of nature, not apart from it. With spaces that bring nature's benefits into daily life and homes that offer a deeper connection to the environment.

THE LOCATION

The Wilds is located in the south of Dubai, neighbouring the Majan Development and Al Barari community, just 25 minutes from Dubai Airport and Dubai Mall.

“WEAVING NATURE INTO THE VERY
FABRIC OF EVERY LIVING SPACE”

DESIGN BY NABIL
GHOLAM ARCHITECTS

“At The Wilds, each mansion has been designed to stand privately, harbouring luxury and comfort within. Boundaries between indoor and outdoor blur, as gardens and green pockets flourish in the interior of each home. Outside, courtyards are sunken into the ground, walkways fade into the tree lines, and natural pools merge with the wilderness. Here, children grow in tune with nature, walking barefoot on cool grass, tracing the rough bark of a tree, watching sunlight dance on water, or breathing in the scent of blooming flowers. Though crafted for elevated living, the Moringa Mansions are designed to grow gracefully alongside the trees, as a testament to the everlasting connection between humans and nature.”

NATURE-INSPIRED POOLS THAT
FLOW INTO THE WILDERNESS

THE WILDS MORINGA MANSIONS

Positioned on expansive private plots, the Moringa Mansions boast vast windows that frame the lush Central Park, offering a rare connection to nature. Nestled among native plants and open green space, each home is designed for natural privacy while providing exclusive amenities, including a personal rooftop terrace, in-house gym, private elevator, air-conditioned basement parking, driver's room, and spacious service quarters.

HOMES GROWN IN HARMONY

Choose between two distinct design expressions for the façade of your home. One pairs stone with rich copper that will age gracefully over time, while a perforated canopy filters sunlight, casting intricate patterns and providing shade. The other blends limestone with crisp white render, accentuating the natural textures of wood and stone for a contrast that complements the lush surroundings.
