

SIERRA

by IMAN

The background image is a serene landscape at sunset or sunrise. A woman in a long, flowing, light-colored dress stands in a calm body of water, her figure perfectly reflected. The water is dotted with lily pads. In the background, a dense tropical forest with palm trees and other foliage is silhouetted against a warm, golden sky. The entire scene is overlaid with a semi-transparent grid of vertical and horizontal lines, creating a layered, architectural feel.

The City Moves,

You Don't have to

Dubai is a city of ambition and acceleration.
But even here, there is room to soften.
Sierra offers a new way to live.

*Luxury without the rush, calm within reach,
wellness at the core.*

MOTOR CITY

Stillness in Motion

Motor City is where the city slows.
Wide boulevards, shaded parks, and walkable
paths make space for life's softer side.

With everything you need nearby, you move with
ease; never haste.

*And nestled within it all, Sierra rises; a sanctuary
designed for balance.*
